## **DETAILED ACTION**

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Abe discloses a coin separator and rejector body having two segments (12, 13) hinged together at hinge (14), with a raceway defined therebetween with an upstream and downstream portion. See col. 4, lines 5-15 as well as figures 7-9.

4. Sensors in the form of coils (17, 17'), Located in the upstream portion, and sensors (42, 42) located at the outlets located in the downstream portion, are in communication with programmed microprocessor (39), said microprocessor sending signals to trigger external interfaces (40, 41) which are connected to actuators in the form of solenoids of electromagnetic gates. See col. 5, lines 9-30.
